COMMITTED TO MAKING EVERY WEBEX MEETING BETTER

Crystal-clear audio quality

Get a better meeting experience with reliable, high-quality audio that makes meetings more productive and efficient.

Global coverage

Connect participants from across the globe with more than 160 local access points and regional softphone servers.

Hybrid audio

Mix dial-in, dial-out and VoIP calls in the same meeting.

Seamlessly integrated

Meetings continue to be managed through the familiar WebEx interface, requiring no additional end user training.

Large meeting capacity

Deliver flawless audio quality on calls with up to 300 participants with no degradation due to increased meeting capacity.

Proven enterprise-grade audio network

GlobalMeet Audio is a hybrid IP audio network that hosts more than 60 million audio meetings each year.

Easy softphone installation

Organizations can choose to manually deploy the GlobalMeet softphone to their users or allow meeting participants to self-install.

Reduced conferencing costs

A single per-minute VoIP rate available from any location in the world reduces reliance on costly PSTN connections.

PGi is a leading global provider of collaboration software and services. With a presence in 25 countries, PGi's award-winning solutions provide a collaborative advantage to over 45,000 enterprises customers, including 75% of the Fortune 100™. In the last five years, PGi has hosted more than 1.1 billion people from 137 countries in over 250 million virtual meetings.
